

Try before you buy

Following the introduction of Staffordshire University's Cyclescheme, staff can now purchase a cycle and accessories and make a 31% minimum saving off the recommended retail price. Savings are made through income tax and national insurance relief.

Interested but not sure whether cycling will work for you? If you're not too confident or need help to plan the best cycle route home, why not try before you buy and take part in a bike buddy commute? The University has teamed up with CycleStoke to offer a unique opportunity to help ease you on to two wheels.

Free try before you buy

- > Loan a University pool bike for a day or two and experience the opportunity of cycling to work.

Bike buddy commute

After arranging the loan of a bike, why not take advantage of a bike buddy commute which includes:

- > Accompanied ride to or from work - booking essential
- > Help with your cycle commute route - it's not always the route you'd drive
- > Hints and tips to improve your commuting confidence
- > Access to free training

Terms and conditions apply. For more information and bookings contact:
