

The Government Standard

## Joining eduroam on Android

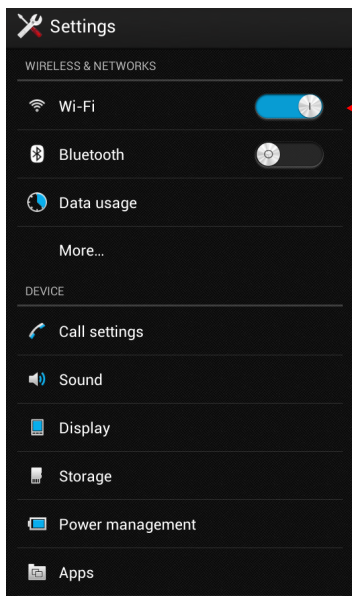

The following screenshots were taken using a Sony Xperia mobile phone with Android OS version 4.1.2. Other Android devices and versions will differ slightly.

1. Go to **Settings**

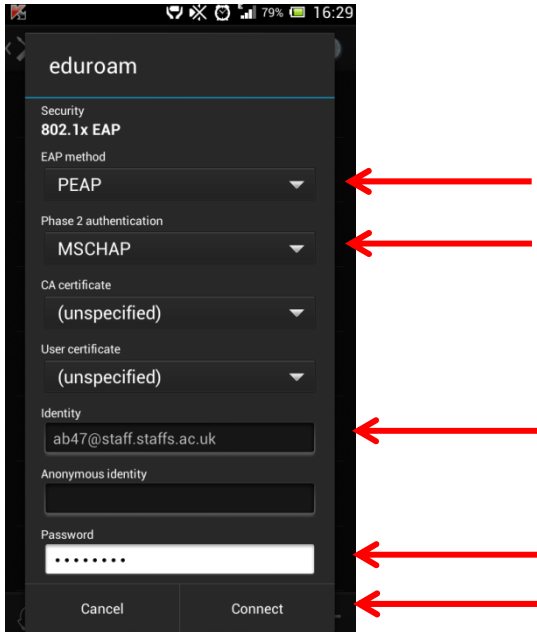

2. Select **Wi-Fi** from the settings menu

3. From the list of available networks select **eduroam**

4. Configure eduroam as follows:
  - a. EAP method: select **PEAP** from the drop-down list
  - b. Phase 2 authentication: select **MSCHAP** from the drop-down list
  - c. Enter your Identity (username) and Password (leave Anonymous identity blank)
    - i. Staff username in the format ***username@staff.staffs.ac.uk***
    - ii. Student username in the format: ***username@student.staffs.ac.uk***
  - Press **Connect**

5. If prompted to do so, accept the security certificate
6. You should now be connected to eduroam
