

## Quick Guide – Printing from Explorer on Android

Open the PrinterOn App

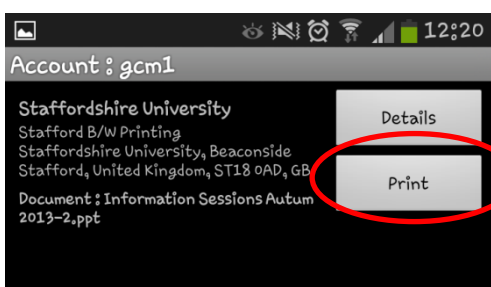

Select Explorer

Browse to the location of the file

Press on the file name to select it

Then you will be shown a list of available printers – press on the printer you want to use to print the file

The details of that print queue will be displayed and the file that has been chosen to be printed

Press Print to print the file

It may take some time for the print job to be sent and while this is happening, a display of the status will be overlaid on the screen until this is completed.
