Active involvement in the Post Graduate Certificate in Higher and Professional Education would be one source of evidence.

Research and Scholarly Activity

The duties of lecturing posts include participation in appropriate research and scholarly activity indicated in the Research Policy of the University. The extent of involvement in research and scholarly activity may vary with the balance between teaching, administration and research appropriate to particular posts. This will be determined by your Dean of Faculty in consultation with you, and will be reviewed regularly through the staff appraisal system.

While it is in the nature of research and scholarly activity that it will often take place throughout the year and be integrated into the overall pattern of activities, it is envisaged that the periods of the year outside normal teaching weeks and the holiday entitlement will primarily be devoted to research and scholarly activity.
