

Careers Centre Guide to . . . Social Bookmarking

Here, in the Careers Centre, we are constantly researching careers-related information – mostly online. Up until now we've saved bookmarks to our own PCs and produced documents with lots of links on, for others to use. Thanks to the wonders of Web 2 technology, however, we can now share our bookmarks with you online using something called **delicious**. **Delicious** is a 'social bookmarking' website. Anyone can create a page, tag links that they would like to share, and publish them online instantly.

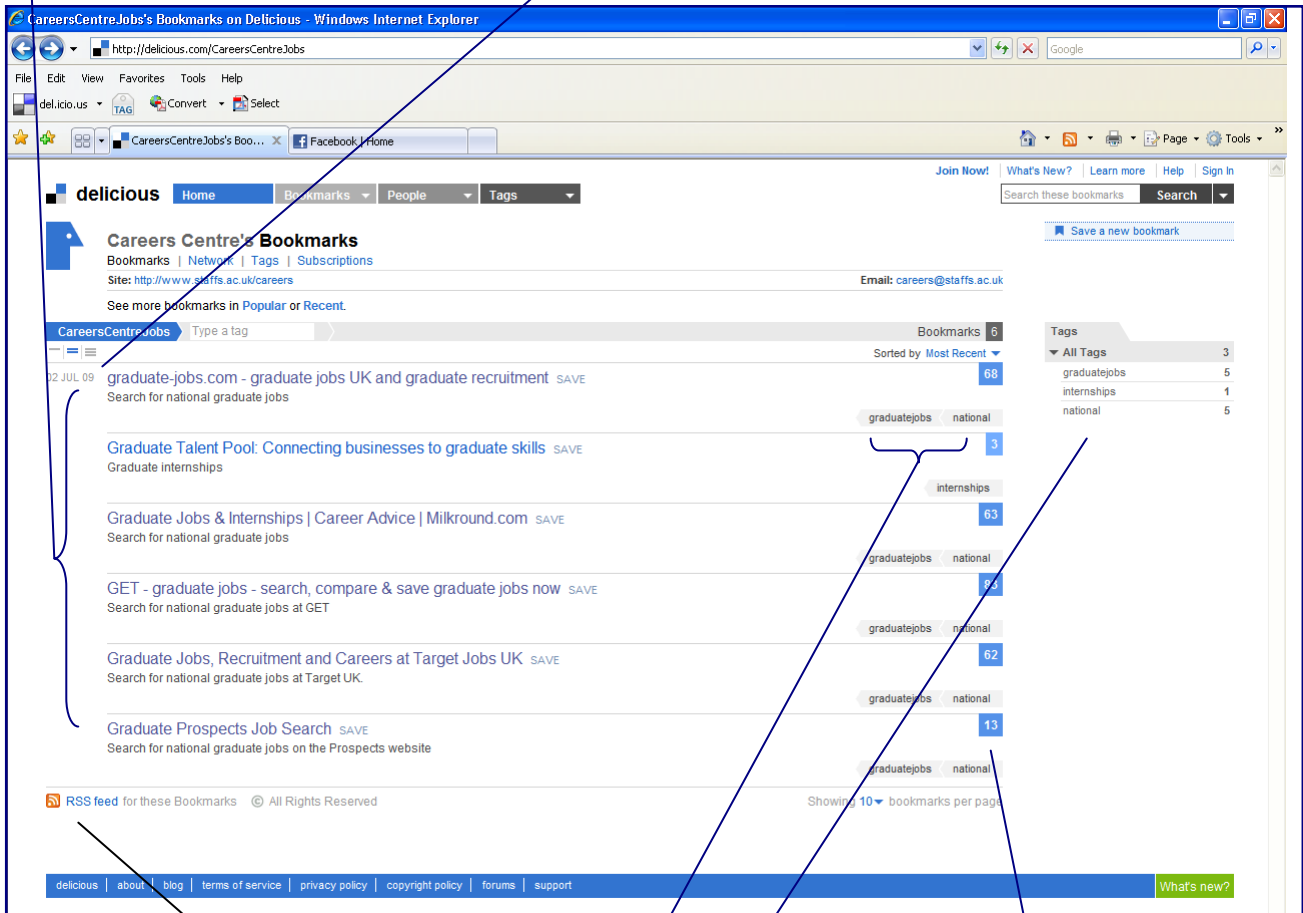

Throughout the Careers Centre website you will find pages of links at **delicious**.

Here's a quick guide on how to use it (using our Jobs bookmarks as an example)

Here are the links, with a brief description of what they are. Click on them and you'll be taken to the corresponding website.

The links are listed by the date they were created

Join our Facebook page at www.facebook.com/careers.centre to see when new bookmarks are added

You can set up an RSS feed, so that you are updated regularly when new links are added

The links are classified using 'tags'. Click on the tag to sort the bookmarks by topic

You can see how many other people have tagged a site (an indication of how popular it is) by looking at this number.

If you have any problems accessing our bookmarks, or our services more generally, then please don't hesitate to drop us an email at careers@staffs.ac.uk 😊
