

***IncludeAll* - Core Concepts: Framework of support**

Members of academic teaching staff are of course not expected to provide an inclusive environment by themselves. Many parts of the organisation work together to provide a framework to support for inclusive practice:

This document is part of an inclusive practice 'toolkit' - *IncludeAll*. The whole Toolkit, as one complete document or as separate documents, can be found on the University website at www.staffs.ac.uk/inclusivepractice .

It is split into four sections: Core Concepts; Inclusive by Design; Enhancing Practice; Checklists for Self-reflection.

The *IncludeAll* Toolkit has been developed by: **Dr Marjorie Spiller** (Academic Development Unit); **Alison Hunt** (Equality and Diversity Manager); **Dave Allman** (Head of the Student Enabling Centre); **MINDSET Project Team** (Faculty of Arts and Creative Technologies).
