COURSE START: 15 September (6hrs per week, for 10 weeks) 4-8pm (Additional 2 hours per week included for self-directed assessment study). Teaching will be delivered online.

The Step Up to Higher Education (HE) course is perfect for those who want to return to realise their potential and move onto the next stages of their careers. This course is designed to give you a range of skills to help you progress with your career as well as developing academic skills needed should you want to progress to a university degree after time away from education.

Individualised and specifically tailored advice, information and guidance surrounding your next career steps is integrated within the programme. Some of our 'career change' mature students have been supported and moved on to become Barristers, Nurses, Authors and Paramedics to name but a few.

"STEP UP TO HIGHER EDUCATION WAS PICTURE PERFECT, SAYS GRADUATE"

"It gave me the confidence to progress, but it also provided me with experience in things such as essay preparation and presentation skills – aspects of HE which I know other mature students probably worry about before starting a degree but doing the course first really put those fears to rest for me!
