We proudly represent the academic interests of all students at Staffordshire University, providing advice, support, student groups, amazing experiences and great coffee! But what does this actually mean?

Every student is a member of the Students’ Union – and as a member you can use all our services, attend any of our events, join all our clubs and societies and help us work with the University to make a #BetterStaffs.

We’re democratically-led – which means we take the student voice and put it into action with fantastic student officers, networks and forums to make sure your voice is heard. We have support services that are independent of the University to help with money, advice and anything you might need. If you’re looking to try something new, or continue sports and interests, we also support students to run over 100 different clubs and societies!

We also have four venues on the Stoke campus – with Squeezebox serving fantastic coffee, Verve serving up fresh dining, LRV hosting weekly club nights, events and live music, and Ember Lounge at the heart of campus. All of which use student staff – which is just one of the ways we help develop students! We even run GreenPad – our own on campus letting service that puts students in safe accommodation with approved landlords.

“Everybody was very approachable and helpful. The Stoke campus is in a great location. We were very impressed with the course our son is interested in and the staff who are teaching on it.”

“Everyone I spoke to made my day fantastic. Very friendly and welcoming.”

“It’s a university with a brilliant atmosphere and interesting degree choices.”

“The staff and students did an excellent job of making us feel welcome and were always available to help if needed. They also did a superb job of promoting the University.”
